The general meeting authorizes the Chairman of the Board of Directors to contact the three largest shareholders according to Euroclear Sweden AB's transcription of the share register as of September 30, 2026, each of them appointing a member of the Nomination Committee. In addition, the Chairman of the Board shall, if desired by the members of the Nomination Committee, be co-opted to the Nomination Committee's meetings.

In the event that any of the three largest shareholders does not wish to appoint a member of the Nomination Committee the fourth largest shareholder should be asked and so forth, until the Nomination Committee consists of three members. If a member leaves the Nomination Committee before its work is completed and the Nomination Committee finds that there is a need for replacing this member, the Nomination Committee shall appoint a new member in accordance with the principles described above, but based on Euroclear Sweden AB's transcription of the share register as soon as possible after the member left the Nomination Committee. The Nomination Committee of Egetis Therapeutics AB (publ)

Appendix 1. The Nomination Committee's motivated statement regarding the proposal for the election of the Board of Directors for the annual general meeting 2026

Report on the work of the Nomination Committee during the year

Within the framework of its work for the annual general meeting 2026, the Nomination Committee has held three meetings at which minutes were recorded, as well as written and oral communication both before and after the meetings of the Nomination Committee. The Chairman of the Board was co-opted to the Nomination Committee's meetings and the communication, but did not participate in the decision on the Nomination Committee's recommendation on the remuneration to the Board members. The Nomination Committee has also conducted interviews with all members of the Board of Directors and certain members of the management of the Company. As a basis for its work, the Nomination Committee has, among other things, conducted an annual evaluation of the Board's work that has been carried out. The evaluation focuses on the Board's working methods, its working climate and the need for special Board competence. The Nomination Committee has noted that the Board members' commitment as well as the frequency of attendance have been high, and that the Board's work has functioned well during the past mandate period.

Shareholders have had the opportunity to submit proposals to the Nomination Committee.

The Nomination Committee's motivated statement regarding the proposal for the election of the Board of Directors

The starting point for the Nomination Committee's work is that the Board of Directors shall have an appropriate composition with regard to the Company's operations, stage of development and other circumstances, characterized by versatility and breadth of the Board members' competence, experience and background. The Nomination Committee has in particular taken into account the need for industry experience and other relevant competence in order to successfully drive the Company's continued development and strategy. Independence issues have also been highlighted as well as the issue of diversity and a balanced gender distribution.

The Nomination Committee is of the opinion that the proposed Board is well functioning, but that it should be strengthened with two new Board members as Elisabeth Svanberg has declined re-election and that there is a benefit of adding additional US commercial knowledge, since Egetis has applied for a New Drug Application with the FDA and prepares the company for a US launch. Following a search process, the Nomination Committee has proposed that Birgitte Volck and Jay Donovan Wu are elected as new Board members. The proposed Board members have solid experience of the life science industry and other expertise in medicine, research, regulatory issues, pharmaceutical product launch, finance, management and business development. Several of the proposed members also have experience of Board work in listed companies and the special requirements imposed on such companies. The Nomination Committee considers that the proposed Board of Directors has an appropriate experience, competence and breadth. The Nomination Committee has applied Rule 4.1 of the Swedish Corporate Governance Code as a diversity policy in preparing its proposal for the Board of Directors. The Nomination Committee has taken into account the need for a well-functioning Board composition in terms of diversity and breadth, including gender, nationality, age and industry experience. In terms of gender distribution, the proposed Board consists of four women and two men. The Nomination Committee has also assessed that the members have the time and availability required to perform the assignment as a Board member in a satisfactory manner.

In an assessment of the proposed Board members' independence, the Nomination Committee has found that its proposal for the Board of Directors of the Company meets the requirements for independence set out in the Code. All of the proposed Board members are independent both in relation to the Company and its management and in relation to the Company's major shareholders.

Against the above background, the Nomination Committee considers that the proposed Board of Directors has an appropriate composition with regard to the Company's operations, stage of development and other circumstances.

Information on all proposed Board members is available on Egetis Therapeutics' website www.egetis.com.
